

Newton's Lane car park to the Viaduct Deck

From the car park cross Newton's Lane to a section of the Nottingham Canal. EITHER go through the gate to the tow-path on the left hand side of the canal, passing the viewpoint information board, OR take the bridle path to the right of canal, turning left when you reach the end. In both cases you will reach a locked field gate and a smaller gate. Go through the small gate downhill to the viaduct steps.
